

Our Artistic Statement

Lincoln Drill Hall endeavours to offer the people of Lincoln the very best in arts and entertainment. Our programme blends a mix of art forms, home-grown and international work, professional and community artists, challenging and popular work into a year-round programme of performance that will delight and inspire our audiences. More specifically, we will:

- Give our audiences a wide-reaching programme of professional theatre, music, dance, comedy, literature, children's/family work, plus the best in contemporary art forms such as aerial and circus.
- Dedicate time to amateur and community companies offering performance opportunities to residents of the city.
- Ensure that our programme embraces the growing diversity of Lincoln, presenting a range of voices and stories on our stages.
- Present a programme that encourages audiences to see shows that are familiar but also work that might challenge their perceptions.
- Collaborate with other venues and artists to create and programme work.
- To be actively engaged in regional, national, and international networks within the arts industry.
- Support artists to make work here in the city and then tour it further afield.
- Support emerging artists to develop their practise.
- Ensure that the artistic programme encourages the widest possible audience.
- Prioritise work where there is added value to the audience – chances to engage and interact with the artists, or attend workshops and masterclasses.
- Provide an additional programme of participatory experiences, chances for people to take part in arts activity.
